

## Summer 2 Week 5 - Home Learning

Dear Year Five,

You are doing brilliantly with the way you are keeping going with your home learning. Make sure that you are uploading it to Google Classroom; Miss Wright and Mr Billers want to see what you're doing as well as us. We are continuing to look at your work as often as we can as well.

This week, your learning will continue to be accessible in the same ways; you can use Google Classroom or the school website. Please try to use Google Classroom to hand in your work as much as possible. Not only do we love seeing it but it also helps us to see what we need to plan for you all next. Please remember, you can take photos of your hand-written work and upload them so that we can see that too.

Remember, you do not need to print the activities to complete them. You can display your work on your laptop, tablet or phone, or write your answers clearly on a piece of paper. If you prefer, you can write or type onto the worksheets.

Can we remind you again to make sure you are using the Stream to share work and photos with the other children in your year and provide polite, kind comments on other children's posts. If you need to ask a question, please use the private comments option on the piece of work you need help with and a teacher will get back to you as soon as possible.

You will find a summary of the learning for this week below. Please make sure you are also logging on to Spelling Shed, Times Table Rock Stars and Read Theory at least three times a week. Well done to those children who are logging in every day, this is really reflected in how much those children's scores have improved.

## **Maths**

This week, you are thinking about angles. You will need a protractor for this. If you do not have one, you can download an app version for using on a phone or tablet. There are some 'free' protractor apps and you only need a standard protractor so look carefully if you choose to download one.

For four of the sessions, you have a worksheet to complete and there is a link to a video to watch (the videos are available through Vimeo this week not the White Rose Website). There is a reasoning activity to try after you have completed the White Rose learning.

All of the answer sheets are available on the Google Classroom page. Please mark your work and have another go at any questions you have not answered correctly before you submit, just like you would in class.

Session 1 – Measuring with a protractor.  
Session 2 – Drawing lines and angles accurately.  
Session 3 – Calculating angles on a straight line.  
Session 4 – Calculating angles around a point.  
Session 5 – Arithmetic Check.

Need more practice? Online quizzes for each day's topic can be found at <https://diagnosticquestions.com/whiterose>

## **English**

This week, you are continuing with your work on Skellig as well as looking at some poems by Mina's favourite poet William Blake, who is quoted throughout the story.

Session 1 – Listen to or read Chapter 17 before completing the comprehension activity.

Session 2 – Read the poem *The Angel* by William Blake and complete the vocabulary activities.

Session 3 – Reread the poem *The Angel* before completing the comprehension activities.

Session 4 – Reread the poem from yesterday and the new poem *The Tyger*, which is also written by William Blake, before comparing the two poems.

Session 5 - Free Write Friday! You have a quick grammar activity to warm you up before you complete your task **or** finish and edit your Home-Schooling balanced argument (depending on how you got in session 4).

## **Wider Curriculum (Topic)**

This week you are completing your DT topic about afternoon tea.

Session 3 – Prepare for your afternoon tea; cook, set up the venue etc.

Session 4 – Hold your afternoon tea and evaluate how the event went.

## **Virtual Sports Day 2020**

As it was meant to be Sports Day on Tuesday, we thought it would be fun to do a Virtual Sports Day, allowing us to still celebrate together even if we can't do it the way we usually do. On Tuesday, Miss McGowan will upload the 5 challenges for you to have a go at. You will have until 3pm on Friday to upload any photos or videos of you participating in the challenges to earn points for your year group team. All the information you need is on the class stream and in the Exercise Programme section for you to find out more.

We look forward to seeing all your learning this week.

Miss Leigh-Hunt and Miss Carter 😊
