

Memory Keepsake Box

Attached is an image sheet to help you decorate your own memory box. You can use any type of box that will be able to hold your treasured items inside. The memory box is designed to keep safe all the items that you treasure so you remember someone special or something important that has happened in your life.

This memory box can be adapted and designed by you to meet your needs.

It is an opportunity for you to create your own special box to keep all the things that are important to you in one place.

For example, you might want to keep certain photographs or cards that you want to look at and re-read.

You might want to discuss what is in the box with someone you trust or you might prefer to keep the box and its contents private.

Remember to keep your memory keepsake box in a safe place and ask an adult if you can include an item, especially if it is expensive or special to them as well.
