

## Week 2 - Home Learning

Dear Year 5,

I have really missed seeing all of your smiling faces every day. I am sure you have all been working super hard at home and I cannot wait to see all your amazing work when we get back!

I am sure it has been a little bit strange for you all completing your learning at home but I am very proud of you all for continuing to try your best.

From this week, you will be accessing all of your learning online. This means that you will need to look at the activities on your computer, tablet or phone and complete them in the book you were given in your pack or print them if you can.

This week, you have another five maths sessions, five English sessions and three reading sessions that are similar to last week. In addition, this week, you also have three short grammar activities to have a go at. Don't forget you should also be using Spelling Shed, Times Table Rock Stars and Read theory three times a week as well as continuing to read for at least 15 minutes a day.

I have also given you a Science project to start. You should do this a little bit at a time over the next four weeks (this time includes the Easter holidays). I am really looking forward to seeing what you come up with!

### Maths

For this week, you have five different activity sheets (one for each day), which must be completed, and extra reasoning activities for each day. For each day, there is a mini- lesson for you to watch before you start at

<https://whiterosemaths.com/homelearning/year-5/>.

The answer sheet for the activity sheets can be found afterwards at the following website: <https://whiterosemaths.com/homelearning/year-5/> and the answers to the reasoning activities can be found in the 'Week 2 Reasoning Answers' document.

Monday Rounding decimals

Tuesday Order and compare decimals

Wednesday Understand percentages

Thursday Percentages as fractions and decimals

Friday Equivalent fractions, decimals and percentages

Need more practise? Online quizzes for each day's topic can be found at <https://diagnosticquestions.com/whiterose>.

### English

This week, you are going to be using a picture from Pobble 365 as inspiration for your writing.

Monday - Respond to the picture and story starter using the key questions.

Tuesday - Plan a story using the teacher model to help.

Wednesday - Write your story.

Thursday - Edit your story

Friday - Publish your story

### Reading

This week you are going to be reading the poem *The Listeners* by Walter de la Mare

Monday - Read the poem thinking about using your voice effectively. What impact does the poem have on the reader?

Tuesday - Recreate an image inspired by the poem.

Wednesday - Answer the comprehension questions about the poem.

### Topic

This week you are going to be starting a Science project. How you manage your time is up to you. I am looking forward to seeing the results!

While you are learning at home, it is important that you try to stick to a routine on school days (no long lay-ins and days in pajamas!) so that you are ready to come back to school. During the Easter holidays next week, you will not have work set as it is still your break but on the 20<sup>th</sup> of April your learning should restart.

Keep up the good work!

I cannot wait to see you all soon!

Miss Carter ☺
