

ICT and Internet Acceptable Use Policy

Wooden Hill Primary and Nursery School

Approved by: Governing Board

Date: 16.10.23

Next review due by: October 2024

Signed

Headteacher:

A white rectangular box containing the handwritten signature "I. Garner" in black ink.

Signed Chair of Governors:

A white rectangular box containing the handwritten signature of the Chair of Governors in black ink.

1. Introduction and aims

ICT is an integral part of the way our school works, and is a critical resource for pupils, staff, governors, volunteers and visitors. It supports teaching and learning, pastoral and administrative functions of the school.

However, the ICT resources and facilities our school uses also pose risks to data protection, online safety and safeguarding. This policy aims to:

- › Set guidelines and rules on the use of school ICT resources for staff, pupils, parents and governors
- › Establish clear expectations for the way all members of the school community engage with each other online
- › Support the school's policy on data protection, online safety and safeguarding
- › Prevent disruption to the school through the misuse, or attempted misuse, of ICT systems
- › Support the school in teaching pupils safe and effective internet and ICT use

This policy covers all users of our school's ICT facilities, including governors, staff, pupils, volunteers, contractors and visitors.

Breaches of this policy will be dealt with under our behaviour policy and staff disciplinary policy.

2. Relevant legislation and guidance

This policy refers to, and complies with, the following legislation and guidance:

- › [Data Protection Act 2018](#)
- › [The General Data Protection Regulation](#)
- › [Computer Misuse Act 1990](#)
- › [Human Rights Act 1998](#)
- › [The Telecommunications \(Lawful Business Practice\) \(Interception of Communications\) Regulations 2000](#)
- › [Education Act 2011](#)
- › [Freedom of Information Act 2000](#)
- › [The Education and Inspections Act 2006](#)
- › [Keeping Children Safe in Education 2023](#)
- › [Searching, screening and confiscation: advice for schools](#)

3. Definitions

- › **“ICT facilities”**: includes all facilities, systems and services including but not limited to network infrastructure, desktop computers, laptops, tablets, phones, music players or hardware, software, websites, web applications or services, and any device system or service which may become available in the future which is provided as part of the ICT service
- › **“Users”**: anyone authorised by the school to use the ICT facilities, including governors, staff, pupils, volunteers, contractors and visitors
- › **“Personal use”**: any use or activity not directly related to the users' employment, study or purpose
- › **“Authorised personnel”**: employees authorised by the school to perform systems administration and/or monitoring of the ICT facilities

- › **“Materials”**: files and data created using the ICT facilities including but not limited to documents, photos, audio, video, printed output, web pages, social networking sites, and blogs

4. Unacceptable use

The following is considered unacceptable use of the school's ICT facilities by any member of the school community. Any breach of this policy may result in disciplinary or behaviour proceedings (see section 4.2 below).

Unacceptable use of the school's ICT facilities includes:

- › Using the school's ICT facilities to breach intellectual property rights or copyright
- › Using the school's ICT facilities to bully or harass someone else, or to promote unlawful discrimination
- › Breaching the school's policies or procedures
- › Any illegal conduct, or statements which are deemed to be advocating illegal activity
- › Accessing, creating, storing, linking to or sending material that is pornographic, offensive, obscene or otherwise inappropriate
- › Activity which defames or disparages the school, or risks bringing the school into disrepute
- › Sharing confidential information about the school, its pupils, or other members of the school community
- › Connecting any device to the school's ICT network without approval from authorised personnel
- › Setting up any software, applications or web services on the school's network without approval by authorised personnel, or creating or using any program, tool or item of software designed to interfere with the functioning of the ICT facilities, accounts or data
- › Gaining, or attempting to gain, access to restricted areas of the network, or to any password-protected information, without approval from authorised personnel
- › Allowing, encouraging, or enabling others to gain (or attempt to gain) unauthorised access to the school's ICT facilities
- › Causing intentional damage to ICT facilities
- › Removing, deleting or disposing of ICT equipment, systems, programs or information without permission by authorised personnel
- › Causing a data breach by accessing, modifying, or sharing data (including personal data) to which a user is not supposed to have access, or without authorisation
- › Using inappropriate or offensive language
- › Promoting a private business, unless that business is directly related to the school
- › Using websites or mechanisms to bypass the school's filtering mechanisms

This is not an exhaustive list. The school reserves the right to amend this list at any time. The Headteacher will use professional judgement to determine whether any act or behaviour not on the list above is considered unacceptable use of the school's ICT facilities.

4.1 Exceptions from unacceptable use

Where the use of school ICT facilities is required for a purpose that would otherwise be considered an unacceptable use, exemptions to the policy may be granted at the Headteacher's discretion. An appointment would need to be made with the Headteacher to discuss this.

4.2 Sanctions

Pupils and staff who engage in any of the unacceptable activity listed above may face disciplinary action in line with the school's policies on behaviour and staff discipline. Details are also found in the staff Code of Conduct and Staff Handbook.

5. Staff (including governors, volunteers, and contractors)

5.1 Access to school ICT facilities and materials

The school's IT support (Agile ICT) manages access to the school's ICT facilities and materials for school staff. Communication with Agile ICT is managed by the School Business Manager (SBM). That includes, but is not limited to:

- › Computers, tablets and other devices
- › Access permissions for certain programmes or files

Staff will be provided with unique log-in/account information and passwords that they must use when accessing the school's ICT facilities.

Staff who have access to files they are not authorised to view or edit, or who need their access permissions updated or changed, should contact the School Business Manager.

5.1.1 Use of phones and email

The school provides each member of staff with an email address.

This email account should be used for work purposes only.

All work-related business should be conducted using the email address the school has provided.

Emails to parents should be sent via the office or via the generic year group email address. On occasions, staff may use work emails to contact parents directly but this must be discussed first with the headteacher.

Staff must not share their personal email addresses with parents and pupils, and must not send any workrelated materials using their personal email account.

Staff must take care with the content of all email messages, as incorrect or improper statements can give rise to claims for discrimination, harassment, defamation, breach of confidentiality or breach of contract.

Email messages are required to be disclosed in legal proceedings or in response to requests from individuals under the Data Protection Act 2018 in the same way as paper documents. Deletion from a user's inbox does not mean that an email cannot be recovered for the purposes of disclosure. All email messages should be treated as potentially retrievable.

Staff must take extra care when sending sensitive or confidential information by email.

If staff receive an email in error, the sender should be informed and the email deleted. If the email contains sensitive or confidential information, the user must not make use of that information or disclose that information.

If staff send an email in error which contains the personal information of another person, they must inform the School Business Manager immediately and follow our data breach procedure.

Staff must not give their personal phone numbers to parents or pupils. Staff must use the school phones or block their number before using their own device.

Staff must not use personal mobile devices or cameras to take images of children or staff. Acceptable emergency use:

- School trips where staff may need to contact a colleague
- Occasions where staff need to take photos on a phone but must instantly delete / send across and show another staff member that this has happened however, this must be first discussed with the Headteacher -
- Emergency incident on site as staff are asked to take their phones with them when evacuating the school

5.2 Personal use

Staff are permitted to occasionally use school ICT facilities for personal use subject to certain conditions set out below. Personal use of ICT facilities must not be overused or abused. The Headteacher may withdraw permission for it at any time or restrict access at their discretion.

Personal use is permitted provided that such use:

- › Does not take place during teaching time
- › Does not constitute 'unacceptable use', as defined in section 4
- › Takes place when no pupils are present
- › Does not interfere with their jobs, or prevent other staff or pupils from using the facilities for work or educational purposes

Staff may not use the school's ICT facilities to store personal non-work-related information or materials (such as music, videos, or photos).

Staff should be aware that use of the school's ICT facilities for personal use may put personal communications within the scope of the school's ICT monitoring activities (see section 5.5). Where breaches of this policy are found, disciplinary action may be taken.

Staff are also permitted to use their personal devices (such as mobile phones or tablets) in line with the school's Code of Conduct and Safeguarding Policy.

Staff should be aware that personal use of ICT (even when not using school ICT facilities) can impact on their employment by, for instance putting personal details in the public domain, where pupils and parents could see them.

Staff should take care to follow the school's guidelines on social media (see appendix 1) and use of email (see section 5.1.1) to protect themselves online and avoid compromising their professional integrity.

5.2.1 Personal social media accounts

Members of staff should ensure that their use of social media, either for work or personal purposes, is appropriate at all times.

Staff should ensure that their settings on all social media platforms prevent inappropriate interactions with parents and pupils (see appendix 1).

Social media accounts set up to promote a business should make no reference to the work of the school or make any association with the school including any images or comments from parents.

5.3 Remote access

We allow staff to access the school's ICT facilities and materials remotely. This is managed by Agile ICT.

Staff accessing the school's ICT facilities and materials remotely must abide by the same rules as those accessing the facilities and materials on-site. Staff must be particularly vigilant if they use the school's ICT facilities outside the school and take care not to import viruses or compromise system security.

Our ICT facilities contain information which is confidential and/or subject to data protection legislation. Such information must be treated with extreme care and in accordance with our data protection policy.

5.4 School social media accounts

The school has an official Facebook Page, managed by an approved ICT consultant by linking posts from the school website. Staff members who have not been authorised to manage, or post to, the account, must not access, or attempt to access the account.

5.5 Monitoring of school network and use of ICT facilities

The school reserves the right to monitor the use of its ICT facilities and network. This includes, but is not limited to, monitoring of:

- › Internet sites visited
- › Bandwidth usage
- › Email accounts
- › Telephone calls
- › User activity/access logs
- › Any other electronic communications

Only authorised ICT staff may inspect, monitor, intercept, assess, record and disclose the above, to the extent permitted by law.

The school monitors ICT use in order to:

- › Obtain information related to school business
- › Investigate compliance with school policies, procedures and standards
- › Ensure effective school and ICT operation
- › Conduct training or quality control exercises
- › Prevent or detect crime
- › Comply with a subject access request, Freedom of Information Act request, or any other legal obligation

6. Pupils

6.1 Access to ICT facilities

- › Computers and iPads are available to pupils only under the supervision of staff

6.2 Search and deletion

Under the Education Act 2011, and in line with the Department for Education's [guidance on searching, screening and confiscation](#), the school has the right to search pupils' phones, computers or other devices for pornographic images or any other data or items banned under school rules or legislation.

The school can, and will, delete files and data found on searched devices if we believe the data or file has been, or could be, used to disrupt teaching or break the school's rules.

6.3 Unacceptable use of ICT and the internet outside of school

The school will sanction pupils, in line with the behaviour policy if a pupil engages in any of the following **at any time** (even if they are not on school premises):

- › Using ICT or the internet to breach intellectual property rights or copyright
- › Using ICT or the internet to bully or harass someone else, or to promote unlawful discrimination
- › Breaching the school's policies or procedures
- › Any illegal conduct, or statements which are deemed to be advocating illegal activity
- › Accessing, creating, storing, linking to or sending material that is pornographic, offensive, obscene or otherwise inappropriate
- › Activity which defames or disparages the school, or risks bringing the school into disrepute
- › Sharing confidential information about the school, other pupils, or other members of the school community

- › Gaining or attempting to gain access to restricted areas of the network, or to any password protected information, without approval from authorised personnel
- › Allowing, encouraging, or enabling others to gain (or attempt to gain) unauthorised access to the school's ICT facilities
- › Causing intentional damage to ICT facilities or materials
- › Causing a data breach by accessing, modifying, or sharing data (including personal data) to which a user is not supposed to have access, or without authorisation
- › Using inappropriate or offensive language

7. Parents

7.1 Access to ICT facilities and materials

Parents do not have access to the school's ICT facilities as a matter of course.

However, parents working for, or with, the school in an official capacity (for instance, as a volunteer or as a member of the PTA) may be granted an appropriate level of access, or be permitted to use the school's facilities at the Headteacher's discretion.

Where parents are granted access in this way, they must abide by this policy as it applies to staff.

7.2 Communicating with or about the school online

We believe it is important to model for pupils, and help them learn, how to communicate respectfully with, and about, others online.

Parents play a vital role in helping model this behaviour for their children, especially when communicating with the school through our website and social media channels.

8. Data security

The school takes steps to protect the security of its computing resources, data and user accounts. However, the school cannot guarantee security. Staff, pupils, parents and others who use the school's ICT facilities should use safe computing practices at all times.

8.1 Passwords

All users of the school's ICT facilities should set strong passwords for their accounts and keep these passwords secure.

Users are responsible for the security of their passwords and accounts, and for setting permissions for accounts and files they control.

Members of staff or pupils who disclose account or password information may face disciplinary action.

Parents or volunteers who disclose account or password information may have their access rights revoked.

Passwords for Google Classroom must be reset annually.

8.2 Software updates, firewalls, and anti-virus software

All of the school's ICT devices that support software updates, security updates, and anti-virus products will be configured to perform such updates regularly or automatically.

Users must not circumvent or make any attempt to circumvent the administrative, physical and technical safeguards we implement and maintain to protect personal data and the school's ICT facilities.

Any personal devices using the school's network must all be configured in this way.

8.3 Data protection

All personal data must be processed and stored in line with data protection regulations and the school's data protection policy.

8.4 Access to facilities and materials

All users of the school's ICT facilities will have clearly defined access rights to school systems, files and devices.

These access rights are managed by Agile ICT and the School Business Manager.

Users should not access, or attempt to access, systems, files or devices to which they have not been granted access. If access is provided in error, or if something a user should not have access to is shared with them, they should alert the School Business Manager immediately.

Users should always log out of systems and lock their equipment when they are not in use to avoid any unauthorised access. Equipment and systems should always be logged out of and closed down completely at the end of each working day.

8.5 Encryption

The school ensures that its devices and systems have an appropriate level of encryption (Bitlocker).

School staff may only use personal devices (including computers and USB drives) to access school data, work remotely, or take personal data (such as pupil information) out of school if they have been specifically authorised to do so by the Headteacher. Use of such personal devices will only be authorised by the Headteacher if the devices have appropriate levels of security and encryption.

9. Internet access

The school wireless internet connection is secured.

9.1 Pupils

Pupils are unable to access the WiFi on personal devices.

9.2 Visitors

Visitors to the school will not be permitted to use the school's wifi unless specific authorisation is granted by the Headteacher.

The Headteacher will only grant authorisation if:

- › Visitors need to access the school's wifi in order to fulfil the purpose of their visit (for instance, to access materials stored on personal devices as part of a presentation or lesson plan)

Staff must not give the wifi password to anyone who is not authorised to have it. Doing so could result in disciplinary action.

10. Monitoring and review

The Headteacher and School Business Manager monitor the implementation of this policy, including ensuring that it is updated to reflect the needs and circumstances of the school.

This policy will be reviewed every two years.

The governing board is responsible for approving this policy.

11. Related policies

This policy should be read alongside the school's policies on:

- Online safety
- Safeguarding and child protection
- Behaviour
- Staff discipline
- Data protection
- Staff Code of Conduct
- Staff Handbook

Appendix 1: Guidelines for the use of social media

10 rules for school staff on the use of social media

1. Change your display name – use your first and middle name, use a maiden name, or put your surname backwards instead
 2. Change your profile picture to something unidentifiable, or if not, ensure that the image is professional
 3. Check your privacy settings regularly
 4. Be careful about tagging other staff members in images or posts
 5. Don't share anything publicly that you wouldn't be just as happy showing your pupils
 6. Don't use social media sites during school hours
 7. Don't make comments about your job, your colleagues, our school or your pupils online – once it's out there, it's out there
 8. Don't associate yourself with the school on your profile (e.g. by setting it as your workplace, or by 'checking in' at a school event)
 9. Don't link your work email address to your social media accounts. Anyone who has this address (or your personal email address/mobile number) is able to find you using this information
 10. Consider uninstalling social media apps from your phone. The apps recognise wifi connections and make suggestions based on who else uses the same wifi connection (such as parents or pupils)
-

Check your privacy settings

- › Google your name to see what information about you is visible to the public

What do to if...

A pupil adds you, follows you or contacts you (e.g. via messenger) on social media

- › In the first instance, ignore and delete the request. Block the pupil from viewing your profile
- › Check your privacy settings again, and consider changing your display name or profile picture
- › If the pupil asks you about the request in person, tell them that you're not allowed to accept requests from pupils and that if they persist, you'll have to notify senior leadership and/or their parents. If the pupil persists, take a screenshot of their request and any accompanying messages
- › Notify the senior leadership team or the Headteacher about what's happening

A parent adds you, follows you or contacts you (e.g. via messenger) on social media

- › It is at your discretion whether to respond. Bear in mind that:
 - Responding to one parent's friend request or allowing a parent to follow your account might set an unwelcome precedent for both you and other teachers at the school

- Pupils may then have indirect access through their parent's account to anything you post, share, comment on or are tagged in
- › If you wish to decline the offer or ignore the message, consider drafting a stock response to let the parent know that you're doing so

You're being harassed on social media, or somebody is spreading something offensive about you

- › **Do not** retaliate or respond in any way
- › Save evidence of any abuse by taking screenshots and recording the time and date it occurred
- › Report the material to the relevant social network and ask them to remove it
- › If the perpetrator is a current pupil or staff member, our mediation and disciplinary procedures are usually sufficient to deal with online incidents
- › If the perpetrator is a parent or other external adult, a senior member of staff should invite them to a meeting to address any reasonable concerns or complaints and/or request they remove the offending comments or material
- › If the comments are racist, sexist, of a sexual nature or constitute a hate crime, you or a senior leader should consider contacting the police

You have a personal business account (or linked to another) using a social media platform

- › **Do not** reference (directly or indirectly) the school or your work within school in any way
- › **Do not** use images or work that are linked to the school
- › **Contacts made via school (pupils, parents or staff) must not be used to promote the business either directly or indirectly including recommendations**
- › Any other business interest needs to be declared at interview
- › Consideration needs to be given to the appropriateness of allowing parents, pupils or staff to follow private business as this can lead to a conflict of interest
- › Any private work, outside of school **must** be discussed with the Headteacher before being established
- › Where a member of staff is concerned about a potential conflict of interest, or that a conflict of interest has occurred, the member of staff must talk to the headteacher immediately
